

Sinclair Broadcasting's decision to require its stations to air an anti-Kerry "documentary" only days before the presidential election is a greivous misuse of the public airways. To call this program "news" merely adds insult to injury.

This misuse of power is a potent argument against consolidation of media. I ask you to begin the process of questioning the wisdom of the present licensing procedures.

The public airways should serve the public. In this case the public airways not only serve the large company but actually do harm to the public.

Thank you for your consideration of my comments.
